songs
of divinity

1005

In the sea of the mundane,
you stand alone- a paragon
of life in an otherwise ev-
eryday world. A vision of
you, clad in our marvellous
creations tells the story of
an island surrounded by
the vast and jealous
oceans, ever trying to chip
at your beauty... but fail-
ing everytime. You stand
unimpeded, untouched and
unblemished.

For every girl and her wardrobe you in your own world out of work and happiness. And these reflections seem like to be possible to be in the world of fashion. And of the same time for designers, because the ideas to see you a wonder and beauty.
